OBJECTIVE

A passionate Computer Science student specializing in Artificial Intelligence and Robotics, skilled in developing robust full-stack web applications, deep learning solutions, and Industrial IoT systems. Dedicated to leveraging technical expertise to solve real-world challenges and drive innovation.

SKILLS AND INTERESTS

Programming Languages	Java, JavaScript, C++, C, Python
Frontend Technologies	HTML5, CSS3, React.js, Bootstrap, jQuery
Backend & Databases	Node.js, MongoDB, PostgreSQL, MySQL
Machine Learning & Deep Learning:	TensorFlow, PyTorch, Librosa, NumPy, Pandas
Version Control System	Git, GitHub
Concepts:	OOPS, DSA, DBMS, OS, CN, IoT, Web3
Soft Skills	Critical thinking, Data-driven decision making, Project ownership

EDUCATION

Vellore Institute of Technology, Chennai B.Tech in Computer Science (AI & Robotics)	July 2021 – July 2025 CGPA: 8.05
Kota Junior College of Science , Karad Higher Secondary Certificate Examination (Class XII)	Aug 2019 – Aug 2021 Percentage: 95.33
Secondary School Certificate Examination Secondary (Class X)	July 2007 – July 2019 Percentage: 91.80

EXPERIENCE

Networking Engineer Intern SmartLeaven Technologies Pvt Ltd, Pune Developed robust communication gateways for Modbus TCP/IP devices and OPC UA Server connections. Streamlined data exchange and real-time monitoring in industrial systems.	Aug 2023 - OCT 2023
---	---------------------

CERTIFICATIONS

- Udemy (Web Development and Blockchain)
- Apna Collage (Java with DSA)
- Udemy (Python)

PROJECTS

Online Food Delivery App • Developed a full-stack food delivery app using MERN stack (MongoDB, Express.js, React.js, Node.js). • Features include secure user authentication, real-time order tracking, and UPI-based payment processing.
Sentiment Analysis of Audio • Built a system to extract emotional tones from sound and music using TensorFlow and Librosa. • Built a system to extract emotional tones from sound and music using TensorFlow and Librosa.
Autonomous Waste Segregator • Built a system to extract emotional tones from sound and music using TensorFlow and Librosa. • Learned robotics, mechanical design, and embedded system programming.

HOBBIES AND INTEREST

- Gym
- Trecking
- Swimming
- Reading Books
